

DD/S&T-2479-63

24 December 1963

Mr. James E. Webb, Administrator
National Aeronautics and Space
Administration
Washington 25, D. C.

Dear Mr. Webb:

In the absence of Dr. Wheelon who is away until 3 January 1964, I am taking the liberty of acknowledging your letter to him of 18 December 1963.

I feel sure that Dr. Wheelon will be most appreciative of the opportunity you have extended to him to participate in the formal reviews of your major programs. We have already earmarked 11 January on his calendar so that he may attend the first scheduled review in 1964.

You may be assured this matter will be called to Dr. Wheelon's attention immediately upon his return and I am sure he will desire to contact you personally.

Very truly yours,

John F. Blake
Executive Officer
